A bonfire is burning in a forest at night. The fire is bright orange and yellow, with sparks falling from it. A full moon is visible in the dark blue sky above the trees. The background is a dense forest of tall, dark trees.

Principle #1

Principle #2: Never stray far from the fire

Show up.

Keep the fire burning.

**If you stray far
away, you will
get cold & your
fire will die out.**

Principle #3: People must see you in a different light.

Your best marketing is not what you say, do, are.

Your best marketing is:

- **what people say about you**
- **what people do for you**
- **who they are because of you.**

Team F🔥yah

Keep moving
